- 12.00 Light Buffet
- 13.00 Discussion and end user feed-back
- 14.30 Closing speaker: Policy Adviser Gerrit Meester, Ministry of Agriculture, Nature and Food Quality
- 15.00 Adjourn

Foresight Analysis for World Agricultural Markets (2020) is an FP6 EU project that is now in the final state. Using novel foresight methods, including policy scenarios and "images of the future", AG2020 integrates 13 partners from around the EU in order to anticipate what EU agricultural markets might look like in 2020 and beyond. AG2020 ask how we can get to favorable outcomes and examine policies at a regional level.

The final conference is an opportunity for the team behind AG2020 to present the analytical work to end-users in order to calibrate end-user needs with the final outcome of AG2020.

At the conference you will be presented to policy scenario analysis including baseline scenarios, three future images of EU agriculture, and suggestions on policy packages relevant for agriculture and food production. Furthermore regional forward analysis will be presented on four European cases: Central Denmark Region, Tuscany, Crete and Rhodope in Bulgaria.

Registration

The end-user conference is an exclusive event with limited seating capacity.

Please register by sending an e-mail to krbo@man.dtu.dk with "AG2020 Final conference" in the subject line.

More on the project can be found on: www.ag2020.org

On Behalf of the AG2020 team,
Dr Kristian Borch
Coordinator
